

What are we doing well?

This school has exceeded my expectations and my child is now happier and has come so far since joining the school.

Providing a family feel school. Warm and welcoming.

Lovely environment for learning. Everyone always very approachable.

Feels like an extended family, very warm, friendly and this shows in the children.

I am so pleased with how my son enjoys school - and that's down to the nurturing devotion of all staff across teaching and support roles.

The school is very welcoming and friendly. I really feel my child is learning well and thriving here.

St Marys has a wonderful atmosphere where kids are taught well and teachers come up with fun ways to get the information across. I like the fact that all kids are still treated as so and not just a number that needs to hit a target.

Superb teachers. I have happy children who love school and who both make great progress. Thank you.

A kind and caring school that works hard to help pupils work to their full potential.

Dojo is brilliant for communications and seeing what my child is doing in their lessons.

What could we do better?

I enjoy looking at my daughters work at parents evening and would be great to have a chance for her to show me through her work as well.

More regular sports and arts activities as part of daily schooling.

Better sound equipment at school plays / assembly's.

Information about moving on to the next year, what the process is.

Provide homework which is less generic and differentiated for students.

Give more details in newsletters about school events like sponsored bounce and parents vs school - didn't know what these were or how they worked.

What do you like or enjoy most at school?

Learning Maths, assemblies, history, teachers.

Going on school trips is my favourite part.

I like the ipads and climbing frame. I really like art.

Playing with friends.

School assemblies and taking part in music activities, singing and choir.

Learning different things.

I like football, maths, Big Write and topic. I like the teachers and the work that they give us.

I like the clubs.

Lunch - specifically pudding.

Is there anything that you would like to change?

Have longer playtimes.

Change humanities to more fitness!!!

Bigger portions at lunch.

I'd like more maths.

Make sure books we read are ones we want to.

Nothing to change as schools the best.
